CWG-D-7/3
3 April 1964

MEMORANDUM FOR: COMOR Photo Working Group

SUBJECT: Tactical Reconnaissance in Indochina

1. Attachment I is an updated IBM listing of the tactical targets in Indochina, including those added since CWG-D-7/2 was issued, for use in both SAC U-2 and IDEALIST U-2 reconnaissance. The listing is presented in three sections, which are organized according to COMOR number, geographic coordinate (latitude order), and target name (alphabetic by country). All targets in which COMUSMACV and other elements of the intelligence community have expressed interest as of 2 April 1964 are included. This listing will be updated as new targets are submitted for inclusion.

2. Attachment I also explains the country codes used in the IBM runs, the target category codes, and the essential elements of information desired. The latter are listed A thru H and can be used in requesting photo interpretation of the targets.

3. Attachment II is an updated map of Indochina on which all targets appearing in Attachment I are plotted.

4. Recipients are requested to notify the undersigned of additions or corrections so that the targeting system may be kept responsive to current requirements.
